

Dear Tom,

I want to thank you for spending time with our church last Saturday and teaching the seminar on the Archeology and Geography of the Holy Land. I had been thinking that our congregation needed a better understanding of the Land. Your visit was a great help toward that end. Everyone that attended really enjoyed the seminar. It was a wonderful presentation with good visuals of the Holy Land and lots of effective "hooks" to aid with memory. Your familiarity with the land was reflected in your concise, yet vivid descriptions. Your intimate knowledge of the Old Testament was obvious as you related the archeology and geography to stories and passages from memory. Above all, I appreciate your infectious passion for knowing as much as possible about the Scriptures and the land and culture that it describes. It was great meeting you and your bride Sarah. We are praying for you both and we look forward to seeing you again.
