

To whom it may concern:

Recently in a most gripping way Tom Meyer of Wordsower told our fellowship of Pastors and leaders in N. California the story of Jonah from memory! God's Word was meant to be orally proclaimed and Tom makes a good case in his ministry and book for reviving the practice of telling orally, through Bible memorization, the truths of God saving work in the churches.

I highly recommend Tom's Wordsower ministry of speaking the Bible from memory and their training seminars to any congregation or para-church ministry that is serious about discipling people in the life of repentance and faith in Jesus Christ.

Respectfully,
