

Dear Tom,

We so much enjoyed having you present the Wordsower ministry in our worship services. Over the past weeks since you left I have received so many wonderful comments on your presentation. The recitation of Genesis 1-11 from memory was powerful in the morning service. The Scriptures come alive when they are heard. On a personal note our family really enjoyed having you stay with us. It is always fun to spend time in real fellowship. Back to the letter – The book of Revelations flew by as it was spoken from heart, my family and I could sense the imagery much better when it was spoken as compared to reading the words on the page. Even though I have spent much time studying Revelation it was fresh and exciting as a book of Worship. Thank you again for your time with us. Drop me an email once in a while so we can pray effectively. May God grant you peace and the ability to dream big dreams and watch Him work.

Grace and Peace

Mike Polley
